ABOUT HFP PAVING STONES

HFP Paving stones was established in 2009 with the aim of supporting the growth of Nigeria's core infrastructure. The company has since grown to employ over 220 people, including foremost experts in the field, producing millions of square meters of products each year.

In 2021, HFP Paving Stones installed a second world-class automated manufacturing facility to fulfill customer demand while keeping quality and durability at the forefront of what we do.
